
NATIONAL MEN IN EARLY YEARS CHARTER

In this setting:

Male carers, workers and volunteers are welcome.

It is normal for boys and girls of all ages to be cared for by men and women.

We recognise that children benefit from interactions with men and women and that both genders have complementary roles in caring for and developing them.

We are seeking a balanced workforce composed of both men and women.

We promote and support Early Years teaching as a career for both genders.

We encourage and welcome job applications from men as well as women.
